

### **DETAILED ACTION**

This action is responsive to the decision of the Board of Patent Appeals and Interferences mailed October 1, 2009. *Claims 1-9 and 11-40 are allowed.*

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach neither singly nor in combination, the claimed limitations of "implementing multiple tunneling protocols by providing a finite set of tunnel interfaces, each tunnel interface characterized by a set of tunnel specific attributes, a first of said tunnel interfaces being associated with one tunneling protocol and a second of said tunnel interfaces being associated with a second tunneling protocol different from said first tunneling protocol" as stated in claims 1, 15 and 22 and similarly stated in claims 9 and 31. These limitations, in conjunction with other limitations in the independent claim, are not specifically disclosed or remotely suggested in the prior art of record. A review of claims 1-9 and 11-40 indicated claims 1-9 and 11-40 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
